

Alicia Montgomery

alimon0729@gmail.com

Summary: I was a Lead Solution Architect at Vikint, with a background in computer science and IT. I have extensive experience using the MS Office Suite (Word, PowerPoint, Excel) and other MS technologies, such as SharePoint, Power BI, and Power Automate.

WORK EXPERIENCE

Vikint **Oct. 2024 – Sept. 2025**
Lead Solution Architect/ Consultant *Remote*

- As a Lead Solution Architect on a contract with the IRS, I work closely with government clients and project teams to accomplish contract requirements.
 - Demand, Governance, Project & Acquisition (DGPAM)
 - Supported the development of DGPAM's SharePoint Intranet Site by gathering the client's requirements and creating new solutions using existing technology (Power BI and Power Automate).
 - 1.2 IT Digitalization Program
 - Developed solutions and delivered transformative design, development, and management of SharePoint, Power BI, and Power Automate tools for the 1.2 IT Digitalization program that supports the business and IT teams with tools to manage work across 10 projects.
 - Developed functional tools, playbooks, guides, charts, dashboards, and templates to support Demand Management and Release Planning. Lead 5+ training sessions on newly developed tools to ensure understanding and proper usage for IRS Employees.

Savan **June 2024 – Oct. 2024**
Technology Analyst/ Consultant *Remote/ McLean, VA*

- As a Technology Analyst on a contract with EPA, I worked closely with government clients and project teams to accomplish contract requirements.
 - EPA CBI Project Team
 - Worked with EPA clients to analyze CBI systems in the agency and determine recommendations for standardization, consolidation, and updates to those systems and for continuity of operations plans.
 - Supported the development of EPA's CBI Intranet Site by gathering requirements and creating sitemaps for planning purposes.
 - Conducted administrative duties on the contract, such as taking meeting minutes, documenting and updating action items in MS Planner, compiling the weekly and monthly status reports, and organizing digital files.

eTelligent **Sept. 2020 – June 2023**
Business Analyst/ IT Specialist *Remote*

- As a Business Analyst/ IT Specialist on 3 contracts with the IRS, I worked closely with government clients and project teams to accomplish contract requirements.
 - IRS Identity and Access Management (IAM) Divisions (Feb. 2022 – Feb. 2023) – Worked with the Planning and Coordination Office (PCO) and IAM Strategy Team by compiling and synthesizing information from various sources into different reports using PowerPoint and Excel.
 - IRS IT Division, User and Network Services (Sept. 2021 – Jan. 2022) – Worked on the IRS Ubiquitous Workplace Initiative, a plan to overhaul the technology ecosystem for 99,000+ users by interviewing current employees and recording responses, conducting data analysis with Excel, and creating deliverables in Word and PowerPoint.
 - IRS Application Development Division / Corporate Data (Sept. 2020 – July 2021) – Assisted IRS POCs with meeting minutes, PowerPoint presentation material and reports, creating and maintaining the division's SharePoint Site, and creating Standard Operating Procedures (SOPs) for future employees.
- I also did back-office work for eTelligent while simultaneously supporting clients' needs.
 - **Key Results:** created 4+ quarterly meeting PowerPoint Presentations, continually updated the company website using WordPress, created 10+ marketing materials using Photoshop and Illustrator for social media, created Power BI dashboards to help manage the contract pipeline, and conducted 3+ company-wide trainings on PowerPoint.

GBCS Group/ SkyIT

Oct. 2022 – Nov. 2022

Frontend Developer Intern

Remote

- As a Frontend Developer Intern, I supported the building and deployment of the new GBCS Group website with a team of 3 other interns using HTML, CSS, React Native, and Typescript. I also served as the team lead for the interns, liaising between the team and executives.
 - **Key Result:** We took the site from 50% to 100% completion within six weeks.
- **Note:** I did this internship while working full-time at eTelligent for my master's degree with my manager's approval.
